THE BRIDGE MINISTRY

NEWS LETTER

OCTOBER 2025

Why do we the Bridge ministry take more of our time to teach children God's Word? Teaching God's word to children builds a strong **moral foundation**, provides **guidance for life's challenges**, develops a deep **understanding of God's character**, and nurtures a personal **relationship with God**, leading to **wisdom, joy, and inner strength** for their lives. It equips them to navigate the world with a **biblical worldview**, understand their identity in Christ, and make righteous choices. As a ministry we understand the children that we minister too are children from a hard place, what is a hard place? This are children from the streets, slums and remand homes or Rehabilitation. Most of the issues they go through are Spiritual not just mental illness a bigger potion is Spiritual. Many a times I ask myself some questions for a normal child how do you sleep on a Veranda outside without blanket and it's raining and you find sleep, eating food from the dustbins and live if nothing is wrong. If you get to hear their stories you will be amazed some don't sleep because of night attacks, demonic dreams and this is why they use a lot of drugs to help them forgets and get a sleep just for a night.

Remember, God's Word is his revelation of himself to his people. It is a gracious gift that allows us to know him more. It is a means to love him and delight in him more. It is a powerful tool for sanctification towards obedience and righteousness. This help children to guard their hearts instead of us putting a finger on them everywhere they go. The Word of God acts as a divine tool, guarding against sin and spiritual adversaries, serving as the "sword of the Spirit" in spiritual warfare**. Ephesians 6:17**, which states, "And take the helmet of salvation and the sword of the Spirit, which is the word of God"

The Shift in Children's Ministry in Today's Times

Children's ministry is no longer what it used to be — and it shouldn't be. The world around our children has changed rapidly. Technology, culture, family dynamics, and even how children learn and relate have transformed. This calls for a major shift in how we reach, teach, and disciple them.

Today's children are digital, visual, and expressive. They crave real connection, purpose, and belonging. The Sunday school model that simply teaches memory verses is giving way to relational discipleship, where children experience God personally, not just learn about Him. It's a move from classroom teaching to kingdom training.

*** Revising.**

This shift means:

☑From information to transformation

☑From entertaining kids to equipping young disciples

☑From church-centered to home-empowered ministry

☑From teachers and lessons to mentors and encounters

The Spirit of God is raising a generation of young revivalists, kids who pray, lead, and serve. Children's ministry today is not babysitting — it's nation-building. It's time to align with what God is doing and give our children not just stories, but spiritual roots and wings.

This is why we are doing our extra ordinary VBS on 17th -22rd of 2025 at the Bridge Ministry to equip our children and our neighboring children for a whole week together with fun day and child evangelism. Kindly we request for your support in cash and in kind that we can be able to reach out to these children effectively.

Blessings.
